General Assessment Statements

If one or more of the below statements are true, contact us to schedule a meeting to discuss how our services can assist with achieving your goals.

- Our organization doesn't have a process to ensure product quality.
- There are so many processes within the organization; we tend to select what we believe will work.
- Our customer finds more quality issues with our product than we do internally.
- After project implementation, there tends to be a lot of production issues.
- There are no apparent reasons why quality issues have been increasing over the past 5-10 years.
- Our plans are to transition to a new infrastructure. Before doing so, our existing processes will need to be assessed to identify gaps and re-engineering opportunities.
- There are inconsistencies between project expectations and results.
